

GenAI Model Training Q&A: Prepaid Card Support

Section 1: Existing Prepaid Card Users

Q: Can I link my prepaid card to digital wallets like Apple Pay or Google Pay?

A: Yes, your prepaid card can be added to digital wallets such as Apple Pay and Google Pay. Just open your wallet app, select "Add Card," and follow the on-screen instructions.

Q: My card was declined even though I had balance. Why?

A: This may happen if the merchant does not accept prepaid cards or if spending restrictions are active on your card. Please check the app for any blocked categories or spending limits.

Q: How can I check my transaction history?

A: You can view your complete transaction history by logging into the mobile app and navigating to the "Transactions" section.

Q: Can I transfer money from my prepaid card to another prepaid card?

A: Yes, if both users have accounts within the same platform, you can use the "Send Money" option in the app to transfer funds securely.

Q: Is there a monthly maintenance fee on the card?

A: No, we do not charge a monthly maintenance fee for standard prepaid cards. Any special program fees will be mentioned in your account terms.

Q: How do I close my prepaid card account?

A: To close your account, please contact our support team at help@qqqq.com or use the "Close Account" option in the app. Ensure any remaining balance is withdrawn or spent before closure.

Q: Can I order an additional card for a family member?

A: Currently, each account supports only one active prepaid card. If you'd like a card for a family member, they will need to register a separate account.

Section 2: New Card Applied but Not Received

Q: I applied for a new prepaid card but haven't received it yet. What should I do?

A: Please allow up to 12 working days for delivery. If that time has passed, kindly confirm your delivery address and we will issue a replacement card.

Q: How can I check the delivery status of my prepaid card?

A: You can track your card status in the app under "Card Settings" > "Track Delivery." Alternatively, contact us with your application date for manual verification.

Q: The card was marked delivered, but I didn't receive it.

A: We're sorry to hear that. Please confirm your full address and postcode so we can verify the delivery and initiate a re-issue if necessary.

Q: I accidentally provided the wrong address. Can I correct it now?

A: If the card hasn't been dispatched yet, we can update the address. Please contact help@qqqq.com with the corrected address immediately.

Q: Can I cancel my current card request and apply again?

A: Yes, but we recommend waiting until your current request is resolved to avoid duplicate processing.

Q: I applied 2 weeks ago and still haven't received the card.

A: Apologies for the delay. Please share your application reference or full name and postcode so we can track your request.

Q: My card was delivered to the wrong address. What should I do?

A: If your card was delivered to an incorrect address, we'll block that card immediately and re-issue a new one to your verified address. Please confirm your identity before we proceed.

Section 3: Not Sure / General Uncertainty Scenarios

Subsection A: Unsure About Card Status

Q: I'm not sure if my card application went through.

A: No worries! Please confirm your full name, registered email, and date of birth, and we'll verify your application status.

Q: I don't remember applying, but I received a card. What now?

A: If you received a card unexpectedly, do not activate it. Contact our support team immediately for verification.

Subsection B: Unsure About Card Features

Q: I don't know if my card supports online payments.

A: Your prepaid card supports online transactions with 3DS security by default. You can toggle this feature in the app under "Spending Settings."

Q: I'm unsure if my card can be used for subscriptions.

A: Yes, you can use your prepaid card for subscriptions. Just ensure that sufficient funds are maintained, and 3DS authentication is enabled.
